

# Octovillions

The Shed Alliance range of Pavillions is made to go with the great Aussie outdoor living lifestyle.

The large units are designed for National Parks, Council Parks, Schools, tourist areas, sporting fields and club areas or can be scaled down to a smaller back yard size - one for any situation - providing functionality, shade and shelter.

# Octovillions

Please contact our office for pricing based on size, frame type and site location.

Our largest unit at a fifteen metre span will fit lots of picnic tables for shaded casual partying and picnics. Sizes range down from our 15m model to 12m, 9m, 7.5m, 6m and a 4.5m span domestic item. Wow, one to suit all occasions, needs and sites. Build a few in large areas.

Built with steel they will last forever and are durable and virtually maintenance free. The full Bluescope Colorbond range is available for your choice of roofing colour. The optional louvre top crown Cupola adds supreme style to cap the job off.

Our range features two steel frame options - galvanised box beams or C Section frames. SHS steel All Gal columns can be fixed to a slab or into footings. The entire range is engineer designed and certified to suit all Australian windloads including Cyclonic. The larger spans are eight sided whilst the 4.5m and 6m units are standard as six sided.
